

As an SAP Service Partner, we advise renowned companies in the automotive and logistics industry on how to make their IT-based processes efficient and sustainable throughout all phases of the value chain. But tasks and challenges grow, and so we grow with them. It opens up completely new opportunities for us. And attractive prospects for performance-driven people like yourself:

SAP Consultant (m/f) - Production logistics

Your tasks:

- Advise customers in SAP logistics projects in PLM and production
- Analyse and record specialist requirements in collaboration with the specialist departments
- Design, develop, optimise and implement SAP-based, customised solutions

Your qualifications:

- Good university degree in information systems, computer science, engineering, business management, logistics or comparable expertise
- At least three years of notable experience in an SAP advisory environment, knowledge of SAP enhancement possibilities
- Professional manner, strong customer orientation and goal-oriented work
- Very good knowledge of German and good knowledge of English

What we can offer you:

- Attractive, performance-driven remuneration package and various additional benefits
- Informal working environment in the centre of Berlin with many team events and flat hierarchies
- Regular training and opportunity to take on responsibility
- Permanent position in a successful company with renowned clients
- Flexible working times, moderate amount of travel, working from home by agreement

Lydia Lika is looking forward to receiving your full application with salary expectations and earliest start date by email to: bewerbung@alogis.com

If you have any questions, please call Ms Lika on: **+49 30 43658-0**

SAP Competence. For Logistics Excellence.
